**INVITATION TO BID:
POOL RESURFACING AND SWIM TEAM DIVE BLCOKS**

The City of Guntersville, AL Parks and Recreation Department is currently accepting bids for the resurfacing of the L-shaped plaster pool at the Guntersville Rec Center and swim team dive blocks for the Rec Center 8 lane competition pool. The scope of the work includes but is not limited to labor, site prep, material, and equipment.

The Rec Center currently has three pools and the L-shaped pool is what is classified by us as the “leisure pool or big pool” and is the one that will be included in this bid for resurfacing. The size of the pool broken down into sections is: the shallow end or rectangle section measures 37’ x 61’ with a depth range of 2’ – 5’, and the diving well section measures 37’ x 41’ with a depth range of 5’ – 11’. Currently we have aging dive blocks located adjacent to the L-shaped pool in our 8 lane competition pool. These blocks will need to be removed prior to the addition of the new blocks included in this bid package. A site visit prior to bidding is not required but is recommended.

BID SPECIFICATIONS:

1. Resurfacing will be done by the following method (or an equivalent method may be used but references will be required from prior similar jobs): the surface shall be cleaned and freed of any non-bonded plaster, dirt, oil, grease, and other foreign materials. The surface will need to be neutralized prior to application of the new surface. Removal of old , existing lane tiles will need to be done as well since these will not be replaced (pool was once our only pool and used for competition).
2. Southern Grout and Mortar Classic Diamond Brite will then be applied to a uniform thickness of 3/8” to ½”. Lane tiles will not need to be replaced in this pool due to it no longer being used for competition.
3. Existing lane rope connectors/hooks will remain as well as life lane that separates shallow section from diving well. Pool lighting will remain in existing locations also. Drain covers will need to be replaced and secured to meet requirements set forth by Virginia Graham Baker Act.
4. Swim team dive block bid will begin with removal of 8 existing dive blocks and any associated hardware with those.
5. New swim team dive blocks will need to be single post stainless steel frame with a non-slip tread platform top and rear step. Backstroke handles will need to be stainless steel as well. Dive blocks will need to meet NFHS and USA Swim rules and regulations regarding dive blocks.
6. Anchor system will need to be a system where blocks can be removed during the off season to maximize life expectancy of the blocks due to this being an outdoor pool. Caps for anchors will also need to be included.
7. Pool will be used during the dates of March 31st – April 5th so resurfacing will need to completed by either March 27th or started after April 5th. Dive block installation needs to be completed by May 1st.

BIDDER RESPONSE:

By signing, I am certifying that we are capable of meeting the specifications listed above in the stated time frame.
